The Last Lab Report: B.Tech Mechanical, Batch of 2027

For the 64 students of B.Tech Mechanical, batch of 2027, in Coimbatore. Made by the student yearbook committee: Nivetha, Harpreet and Faizan. A fictional batch.

Chapter 3: the night canteen. Kothu parotta at 1 am, three cups of chai per assignment, and Faizan's famous "bas ek aur round".

Nivetha R. "I came for the degree and stayed for the people." Favourite memory: rebuilding the go-kart the night before the race. In 10 years: designing engines, and still calling all of you for help.

Batch awards. Most likely to fix your bike at 2 am: Harpreet. Best laugh: Faizan. Future CEO: Nivetha. Always late but always forgiven: all 64 of us, for every 9 am class.

The end
